

# Robotics and Automation Apprenticeship

DEPARTMENT: Production Engineering

## ABOUT THE ROLE:

Numatic International are pleased to be offering their Apprenticeship Scheme again in 2024. We offer full guidance and support as well as accredited learning through the best training providers in the Southwest. We look to grow and develop your skills whilst ensuring that you have full exposure to working for a multi-faceted organisation that prides itself on producing British made products.

As a company we are in a period of growth so why not join now and be part of the journey!

We are currently looking for a Level 3 Robotics and Automation apprentice to join our busy Production Engineering team.

## RESPONSIBILITIES:

The Apprentice is responsible for assisting with production engineering activities and will be involved in developing, improving, and overseeing the equipment and machinery use in the manufacturing process to maximise production.

During the course of your apprenticeship, you will undertake a Level 3 Robotics and Automation qualification that will be Nationally recognised for your future development. You will attend College part of your course as well as learn on the job from specialists around you.

## ABOUT YOU:

You must have an interest in Robotics and Automation and supporting the workforce.

You must have level 4 or above in English and Maths GCSE (or equivalent)

## WHAT WE OFFER:

- A competitive salary of £294 per week that increases each year as you complete the stages of your apprenticeship.
- All costs covered for travelling to College.
- Support and guidance from experienced members of the team.
- The opportunity to grow and develop in an expanding International organisation.

**Closing Date: 12<sup>th</sup> May 2024**

**SALARY: Starting at £294 per week**

How to apply: Please send your CV and Covering Letter to [jobs@numatic.co.uk](mailto:jobs@numatic.co.uk)
