

Site Services – Carpenter

DEPARTMENT: Site Services

ABOUT THE ROLE:

Numatic delivers professional, practical, and reliable equipment, designed, engineered, and all made right here in the UK. With sales to over 100 countries worldwide and an enviable new product slate there has never been a better time to join. Located in Chard, on the Somerset, Devon, and Dorset borders, it offers a semi-rural lifestyle, enviable education provision, access within 20 minutes to stunning coastal shorelines yet with quick links to major towns and cities.

The Site Services Engineer will maintain the fabric and condition of buildings focusing on Carpentry This is a varied, reactive role that at times may deal with difficult and sometimes high-risk situations.

You will maintain building welfare to ensure staff have a safe place to work. It is vital that the building maintenance is conducted on time and to the highest of standards for the business to run efficiently.

RESPONSIBILITIES:

- Provide technical input into maintenance work, sometimes crossing functional boundaries
- Work within a workshop or factory environment, sometimes working in noisy, dusty, oily environments, at height and outside in all weathers. The use of PPE is essential.
- Act and behave in a way compliant with all Numatic International company guidelines and policies, especially those relating to Environmental, Health and Safety, Security, ethics values and codes of conduct.
- Be reactive by providing remedial repairs and renovations on complex building requirements.
- Conduct all planned maintenance on time and to the highest of standards.
- Communicate with supervisors and managers, providing feedback on learnings to foster an environment of continuous improvement.
- Ensure that health & safety practices, legislation, and company procedures are always adhered to.
- Follow and work with detailed diagrams, plans and drawings.

ABOUT YOU:

- NVQ level 3 qualification in Carpentry or relevant knowledge through work experience.
- Experience working in a manufacturing environment.
- Experience of both planned and reactive maintenance.
- Demonstrable experience in Carpentry
- Excellent communication skills, ability to communicate verbally.
- Ability to provide technical advice and guidance within area of expertise.
- In depth understanding of relevant regulations, within area of expertise, with ability to interpret technical documentation.

Closing Date: 12/08/2022

SALARY: £27,000 - £33,000 p.a DOE
