

Fabrication Apprentice

DEPARTMENT: Operations

About us

Established in 1969, Numatic International has a proven track record in designing cutting-edge cleaning and janitorial products for a multitude of industries, from commercial and industrial to consumer. Recognised all over the world for the iconic Henry vacuum cleaner, we design and manufacture all of our products for global distribution from our impressive production facility in Chard, Somerset: a bustling market town in the Southwest, which remains to be an economic hub centred around British manufacturing.

Numatic International are pleased to be offering their Apprenticeship Scheme again in 2021. We offer full guidance and support as well as accredited learning through the best training providers in the Southwest. We look to grow and develop your skills whilst ensuring that you have full exposure to working for a multi-faceted organisation that prides itself on producing British made products.

As a company we are in a period of growth so why not join now and be part of the journey!

We are looking for an apprentice to work in our Fabrication workshop. You will be working as part of a team that laser cut, bend, cut and make metal objects for our many machines that are made here on site. You will learn how to analyse engineering drawings and specifications to plan layout, assembly, and fabrication operations. You will learn how to assist with production and maintenance of detailed specifications, objectives, requirements, and documentation throughout a development cycle. Through working with an experienced team, you will cover all aspects of the role to include laser cutting and fabrication as well as some welding.

During the course of your apprenticeship you will undertake a Level 2 Weld and Fabrication qualification as well as learn on the job, this will involve attending College 1 day a week.

What we are looking for:

- You must have an interest in Fabrication and Metalwork
- You must have English and Maths GCSE at level 3 or above.

What we offer:

- A competitive salary of £239 per week that increases each year as you complete the stages of your apprenticeship.
- All costs covered for travelling to college.
- Support and Guidance from experienced members of the team.
- The opportunity to grow and develop in an expanding international organisation.

To apply for the Fabrication Apprenticeship please send your CV and a covering letter to jobs@numatic.co.uk

Closing Date: 12/05/2024

SALARY: Starting £239 per week

How to apply: Please send your CV and Covering Letter to jobs@numatic.co.uk
