

Financial Controller

DEPARTMENT: Administration

ABOUT THE ROLE:

The Financial Controller will be responsible for the accounting function, ensuring that records are kept appropriately and that reported results comply with accounting standards and relevant legislation. Carry out research, analyse data, produce reports and deliver executive presentations to the senior management team.

The Financial Controller will contribute to the financial strategy of the business and will be instrumental in the development of internal control policies and procedures within the company. Accountable for coordinating and leading the preparation of the budget and financial forecasts, preparing monthly financial statements including consolidation of overseas subsidiaries' results and other periodic financial reporting. Ensure the finance team operates within a robust control environment and be the point of contact for external auditors.

RESPONSIBILITIES:

- Based on strategy and personal objectives, the Financial Controller will support the Finance Director with creating and implementing departmental strategy.
- Assist the Finance Director on business improvement projects to support activities that impact own job or that of the team.
- Prepare and publish timely monthly financial statements.
- Direct and coordinate the preparation of the budget for the Numatic Group.
- Create monthly and annual reports to identify results, trends and financial forecasts.
- Ensure the finance team are managing accounting operations effectively, including billing, accounts receivable, accounts payable, general ledger, cost accounting, inventory accounting and revenue recognition.
- Develop and document business processes and accounting policies to maintain and strengthen internal controls.
- Be accountable for ensuring compliance with accounting standards, keeping up to date with relevant legislation.
- Influence development of standards and legislation by attending meetings with external stakeholders.
- Provide technical advice and guidance to senior management on complicated matters and support team members using substantial creativity.
- Act as a finance expert in supporting business stakeholders from issue identification to robust solution
- Maintain statutory records and databases for Numatic International

ABOUT YOU:

- Degree level in accounting or relevant knowledge through work experience.
- Professional accounting qualification, ACA/ACCA/CIMA.
- Desirable; Advanced degree in accounting.
- Proven experience in finance management.
- Experience of working with senior management within the business.
- Robust understanding of commercial and customer relationships.
- Experience of analysing qualitative and quantitative data to measure impact and determine improvements.
- Experience with working with budgets.
- Experience of project management across varied business areas.

Closing Date: 27/06/2022
