

Graduate Scheme Recruitment- Cyber-Security & Infrastructure Engineer at Numatic International Ltd, Chard

Numatic are pleased to announce the re- launch of our graduate schemes in 2022- the application process is now open!

Are you keen to:

- develop a career in Cyber-Security and IT infrastructure?
- build your experience within a growing organisation that is home to a beloved brand?
- work in an agile and fast-moving environment delivering forward-thinking digital solutions in the UK and globally?

Do you enjoy:

- thinking about how to make technology and processes work better?
- getting to the root cause of problems, and working out how to be one step ahead of potential risks?
- collaborating with others to innovate?
- having a varied workday and having responsibility for specific projects?

Are you:

- a good communicator?
- positive and enthusiastic?
- a problem solver?
- interested in how future digital solutions can be enabled and protected?

We are looking for an enthusiastic, adaptable, and eager-to-learn graduate from any technical degree discipline to join our Information Systems & Digital Services graduate programme as a Cyber-Security & Infrastructure Engineer. The scheme aims to provide the successful applicant with a strong cyber-security, technical and cloud infrastructure grounding, and an introduction into digital solution delivery. Our department serves our entire business – Marketing, Manufacturing, Distribution, R&D, Sales, Customer Service, Operations, Finance, HR; in the UK and for our global companies.

The Opportunity

What does a Cyber-Security & Infrastructure Engineer do at Numatic?

- Keep our networks and enterprise systems performant and secure,
- Define and implement new security/compliance systems, policies, and processes,
- Monitor current cyber security threats, analyse risks, recommend and/or resolve security issues, and
- Design and support Datacentre and Edge systems including wired/wireless networking, virtualised core, server/storage hardware, cloud systems, disaster recovery etc.

This role will be based at our Head Office campus in the heart of Somerset, Chard, and you will undertake a tailored 2-year programme. Your time will be primarily focussed on growing your cyber-security and IT infrastructure skills, and will also be supported by:

- Short placements across the IT and Digital Services department so you gain visibility across the full IT delivery and support lifecycle, and our technical environment and solutions, and
- Short placements within key areas of the business so that you get an understanding of making, shipping and selling our products, and supporting our customers.

In addition to receiving first class training, we will also provide you with exposure to our senior leaders across the business, providing you with an opportunity to showcase your talents.

We embrace diversity, equity and inclusion and look to develop our people in the skills and areas they are most interested in, leveraging the qualities and unique competencies that each individual brings to the company.

If you are interested in applying, please email jobs@numatic.co.uk with CV and covering letter.

Salary: £26,786pa
