

Skilled / Multi Skilled Maintenance Engineer

DEPARTMENT: Site Maintenance

ABOUT THE ROLE:

Known for the Henry and Hetty Vacuum cleaner and independently rated the UK's most reliable vacuum brand, Numatic understands the need and demand for sustainable cleaning solutions. Longevity, efficiency, serviceability and recyclability are the four values that construct the Numatic Sustainability Formula. Above all else, the most sustainable products are those that you can use day after day, without fail, for many years.

We have an exciting opportunity for a Maintenance Technician to join our Engineering team. You will play a key role in the Engineering department and work as part of a team supporting Production Engineering and Maintenance.

Activities will include technical support for production, including the automated assembly and other automated cells (full training will be given on all the individual parts of equipment). The role also includes supporting maintenance with Piranha service and plant break down tasks.

RESPONSIBILITIES:

- Technical support for new and automated equipment throughout Manufacturing.
- Support the maintenance team on plant break downs to minimise production downtime.
- Assist with assembly, installation and commissioning of in-house designed automated cells.
- Service existing plant within the business.
- Ensure that health and safety practices, legislation and company procedures are adhered to at all times.

ABOUT YOU:

- Experience of working in a manufacturing environment.
- Excellent fault finding and diagnostics skills with awareness of appropriate health and safety regulations.
- Both mechanical and Electrical maintenance experience.
- Previous experience in working with automated production lines would be beneficial.
- Mechanical knowledge including Hydraulics/Pneumatics.
- Electrically qualified.
- Basic programming skills.
- Ability to work under pressure
- Positive proactive work ethic
- Strong prioritisation skills with ability to manage competing demands.
- Strong team player.
- To be able to read and interpret mechanical/electrical drawings.
- Basic IT skills.

Closing Date: 15/05/2024

SALARY: Circa £40,000 depending on experience

How to apply: Please send your CV and Covering Letter to jobs@numatic.co.uk
