

Student Placement Year – Electronics

DEPARTMENT: R&D

Numatic are pleased to announce the re- launch of our placement year schemes in 2022- the application process is now open!

ABOUT US:

Numatic International are looking for people who enjoy taking responsibility, who bring energy and who are passionate about innovation. We are looking for people who want to work with the latest technologies and want to grow and develop the next generation of innovative and sustainable products. People that want to leave their mark- we employ over 1200 people on our 30-acre campus in Somerset and we have just announced a £30m investment to support the expansion of our product offering.

We are looking for 2 enthusiastic, adaptable, and eager-to-learn electrical/ electronic/ software engineering students to join our R+D Placement Year Programme. The scheme aims to provide the successful applicant with on the job guidance and teaching to improve the expertise you'll already have. Our R+D Facilities are a fantastic place to learn, develop and grow.

THE OPPORTUNITY

What You'll be doing:

- Participate and continue with own learning and studies whilst completing a range of largely routine duties and tasks.
- Work with and learn from internal Motors, Wiring, Electronics and Software Engineers.
- Participate in the development of an exciting autonomous project
- Work within a test laboratory environment as required.
- Contribute in various, routine design projects from concept to completion, seeking advice on requirements from relevant internal managers.
- Contribute to detailed specifications, requirements, and documentation throughout a development cycle.
- Listen to feedback to gain skills and improve own knowledge on design and project work.
- Engage and learn from internal specialists, to ensure own knowledge base is solution focused to support continuous improvement through innovation and commercialisation.
- Ensure attention to detail, seek feedback on rectification of error when engaged on project work.
- Use creativity; develop interests in your area of specialism.

This role will be based at our Head Office campus in the heart of Somerset, Chard, and you will undertake a tailored 1-year programme. Your time will be primarily focused on growing your electrical/ electronic/ software skills, plus broadening your knowledge in a manufacturing setting. In addition to receiving first class training, we will also provide you with exposure to our senior leaders across the business, providing you with an opportunity to showcase your talents.

Closing Date: 13/05/22

SALARY: £17,000 - £19,000 p.a DOE

How to apply: Please send your CV and Covering Letter to jobs@numatic.co.uk
