

R&D Workshop Apprentice

DEPARTMENT: Research & Development

Are you the face of our future? Apprentices are essential to our Company development – get paid to earn while you learn on your career journey.

Home to the UK's Number 1 selling vacuum cleaner, at Numatic we have a strong and proud heritage. But it's not just about Henry, it may surprise you to know that we manufacture over 150 different products, with thousands of variations! From concept through to design, moulding through to assembly and testing, to sales and shipping worldwide, everything happens at our manufacturing site in Chard.

We are one of the largest local employers, our business is booming with year-on-year growth.

ABOUT THE ROLE:

As an R&D workshop apprentice you will work in our R&D Workshop and will learn how to work with large industrial CNC machinery and understand how this equipment works, continually working with exciting new technologies. You will gain knowledge and understanding of machine components to a high standard. You will also be involved in 3Dprinting processes and general workshop activities including welding, general model making and hand finishing, You will be working in a small team of highly skilled and specialist engineers who will mentor you closely in the work-place.

WHAT'S IN IT FOR ME?

- An opportunity to undertake a Level 3 Engineering qualification specializing in machining and cad/ cam programming which may lead on to degree funding after successful completion of the apprenticeship for the right applicant. As well as day to day learning on the job, you will attend for up to 3 days a week at college.
- Starting salary of **£294** per week (increasing yearly upon completion of the apprenticeship) with college fees, including reference books and transport paid for.
- We heavily invest in our apprentices with the intention of offering permanent employment following successful completion of your apprenticeship, this will give you opportunities to grow and develop your skills whilst ensuring you have exposure to a growing business who pride themselves on producing British made, sustainable products.

WHAT ARE WE LOOKING FOR?

- An interest in engineering and design technology
- A logical problem solver
- You should have, or expect to have, a minimum of 5GCSEs with Maths and English at Grade 4 or above (or equivalent)
- Ideally you will have had some work experience, but this is not essential

Closing Date: 29/04/2024

How to apply: Please send your CV and Covering Letter to jobs@numatic.co.uk
