

SQL Server DBA

at Numatic International Ltd, Chard

Numatic International Ltd is the leading UK manufacturer of commercial cleaning equipment, creator of the famous Henry vacuum.

We are one of the largest local employers, our business is booming with year-on-year growth, and we are looking to recruit an exceptional SQL Server Database Administrator.

It is our ambition to continue to support our company's phenomenal growth by using technology to drive competitive advantage, and this is dependent on us continuing to build the very best technical team.

This is a fantastic opportunity for you to join our Information Technology and Digital Services Department. It is a unique chance to join a team that is undergoing technology transformation.

About the role:

The SQL Server DBA works as part of the Application and Database Management Team within the IT&DS Department primarily responsible for managing SQL server databases.

Responsibilities involve SQL Server 2019, Oracle on-premise EBS estate, Postgres databases and the running and maintaining of core business enterprise applications.

Reporting into the Application and Database manager the role will require you to work with other IT&DS departments such as Solution Architecture & Delivery, Development, Infrastructure and Security. We are currently going through a period of change and as a result you will also be assisting with a broad range of projects and technologies supporting delivery of top-class experiences for our customers and employees.

What you will do:

- Responsible for the management, support and maintenance of all SQL server and Oracle databases
- Clone/refresh Dev, Test or Project environments
- "Traditional" DBA skills such as database server installation and configuration, database backup and restoration, authentication and performance tuning.
- Contributing to the architecture and delivery roadmap to ensure high levels of performance, availability, sustainability and security.
- Incident ticket ownership, ensuring all steps to identify and resolve the issue in a timely and effective manner
- Upgrade, patch and maintain core business applications – EBS 12.2, Qlik and PDMWorks.

About you:

- Experience working with Microsoft SQL Server 2016 and/or 2019
- Experience in SQL Server Always On Availability
- Database schema, table and index design.
- Experience with high transaction OLTP environments.
- Passionate about delivering to a high standard.
- Experience in Windows server operating systems and the ability to perform Windows Server Administrator operational duties as required to support the running of the databases.
- Nice to have:
 - Experience with Cloud technologies - Azure, Data Gateways, Power BI
 - Linux experience

Salary: £35,000-£45,000

How to apply:

Please send your CV and covering letter to jobs@numatic.co.uk
