

# Supplier Quality Engineering Graduate

DEPARTMENT: Quality Assurance

**Numatic International are pleased to announce the launch of our 2024 Graduate scheme. The application process is now open!**

We are looking for enthusiastic and eager to learn graduates, with the ability to adapt to join our Supplier Quality Assurance Graduate Programme.

The scheme aims to provide the successful applicant with a strong commercial grounding in Supplier Quality Engineering within a large manufacturing setting.

## The Role

This role will be based at our Head Office campus in Chard, Somerset and you will undertake a tailored 2-year programme. Your time will be spent on short term placements within the Quality Department, gaining experience of all stages of our products lifecycle. Not only will you be working within a great team environment, but you will also be creating valuable solutions for a company that puts our customers' needs at the heart of everything we do. You will also gain professional development for both soft and hard skills through attending internal and external training programmes.

In addition to receiving first class training, we will also provide you with the exposure to our senior leaders across the business providing you with an opportunity to showcase your talents. We embrace diversity and look to develop our people in the skills and areas they are most interested in, leveraging the qualities and appreciate the unique competencies, skills, and experiences that each person brings to the company.

The placement will be centred around the Quality Assurance department which includes Quality Control. The role will require some UK and International travel and you will be required to work cross functionally with key departments such as Supply Chain Management, Product Management, Research & Development, Production Engineering, Manufacturing Operations and both UK and Export Sales departments to deliver benefits supporting the following area:

## Supplier Quality Management

- Lead, coach, support, and challenge suppliers to ensure the correct quality for the complete life cycle of delivered parts.
- Development of parts and process utilising tools such as DFMEA, PFMEA, Measurement System Analysis, Value Stream Analysis, Control Plan & work instructions.
- Coach underperforming suppliers on performance improvement initiatives.
- Develop and execute risk-based supplier audit program for the UK & International supply chain.
- Manage supplier non-compliance to minimise operational disruption.
- Monitor and report supplier performance using agreed KPI's.
- Work cross functionally to develop and manage the company Sustainability & CSR monitoring programme.
- Develop and implement strategic improvements, to deliver a high level of supplier performance .
- Drive initiatives and develop documentation to deliver system & process improvement.

The experience and knowledge gained will lead successful candidate to focus on a career with Numatic for the foreseeable future.

**STARTING SALARY: £29,000 per annum**

**Closing Date: 23rd April 2024**

How to apply: Please send your CV and Covering Letter to [jobs@numatic.co.uk](mailto:jobs@numatic.co.uk)
